

ZEPQ[®]

Zepocol

GLUE TRAP

A glue trap for mice, which is very effective and easy to use. It is applied to a support (cardboard, paper...), which is then placed in areas frequented by the rodents, which become stuck when walking on it. As it is not toxic, it can be used in all types of situations without posing any danger.

ZEQO[®]

Zepocol

DESCRIPTION:

A non-poisonous glue trap for mice, which is very effective and easy to use. It is applied to a support (cardboard, paper...), and then placed in areas frequented by the rodents, which become stuck when walking on it. Bait can be added (cheese, etc.) to attract the mice. When placed near to entrances, it prevents the access of crawling insects and small animals. If placed around plants, it protects them against insects.

MODE OF USE:

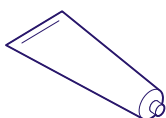

Apply to a circular board, cardboard or base, placing bait in the middle of the circle so that the mouse will become stuck when it tries to reach the bait.

- Bread, cheese, chocolate, etc. can be used as bait.
- This glue can be used to eliminate crawling insects such as ants, cockroaches, etc., by placing it in the areas frequented by such insects.
- It can also be placed in pantries, food stores, etc., as it is a non-poisonous, non-toxic product.

COMPOSITION

Synthetic resins.

FORMATS AVAILABLE

135 g
