ZOTAL®

ZERO

DISINFECTANT DEODORIZANT

ZOTAL® Zero is a microbical disinfectant with a LEMON ODOUR. It is exactly the same as the usual Zotal, so it is suitable for use in warehouses, barracks, patios, villas, country houses and other public or private facilities. Due to its microbical disinfectant action and LEMON ODOUR, it eliminates unpleasant odours, providing a hygienic and clean environment, leaving the treated area with a pleasant and clean smell.

— FOR DOMESTIC USE —

The efficacy you need.

ZOTAL®

ZERO

DISINFECTANTS

DESCRIPTION:

ZOTAL® Zero is a microbicidal disinfectant with a LEMON ODOUR. It is exactly the same as the usual Zotal, so it is suitable for use in warehouses, barracks, patios, villas, country houses and other public or private facilities. Due to its microbicidal disinfectant action and LEMON ODOUR, it eliminates unpleasant odours, providing a hygienic and clean environment, leaving the treated area with a pleasant and clean smell.

USE:

The ZOTAL® Zero formula, a microbicidal disinfectant in the form of an emulsifiable liquid, owes its action to its content in synthetic phenols, giving it microbicidal, fungicidal and deodorising properties. For its effective use, it must be diluted in water and applied by contact. Its other components favour its disinfectant and bactericidal action, aiding the cleaning process and ensuring the moistening and penetration of the product, thus achieving greater efficiency.

MODE OF USE:

For watering and washing, ZOTAL® Zero must be diluted in water at 5% (250 ml in 5 litres of water). It can also be applied by brushing, soaking or spraying. Thus, this microbicidal disinfectant is recommended for the disinfection of areas that may harbour microbes. The active ingredients of this disinfectant with a lemon odour exert a synergic and persistent action.

REGISTRATION No.: 18-20/40-09259

COMPOSITION

Glycolic acid	0.1%
Biphenyl-2-ol	4.0%
Chlorocresol	0.9%
Excipientes q.s.p	100%
